GOLD is the physical manifestation of sunLight

Unique principles that represent the physical manifestation of sunlight: gold emanates rich, energetic perfection.

To celebrate a decade of Clizia, we've distilled this virtuous heavy metal into a particularly luxe finish.

Alchemic gold is consciously forged, and Clizia has transmuted into the same sort of rare, almost super-natural beauty. Light and shadow, fair and dark, feminine and masculine, strength and sensitivity, levity and luxury, all united in the perfect melding of opposing traits.

Within the Symposium, Plato gave the floor to Aristophanes to discuss his take on love; he called on a myth. Humans were once perfect beings, with no gender, and this perfection made Zeus envious. He separated the two, leaving us even today to constantly search for our other half, a return to original, ancient perfection. Clizia's gold tones represent this union.

An expression of enrapturing hypnosis, the highest representation of Light. Clizia's petals are adorned with gold foil, slightly crackled to let internal illumination shine through. Subtle veins free the lumen within, precious metals reflect and slight openings reveal.

Principio unico e originario, l'oro come materializzazione della luce solare, dell'energia, della ricchezza, della perfezione.

Per i 10 anni di Clizia abbiamo voluto condensare le virtù dell'oro in una finitura particolare e preziosa.

Come l'oro alchemico, quello che non si trova in natura ma si genera con coscienza, Clizia si trasmuta in oggetto di rara bellezza. I due principi luce e ombra, come bianco e nero, maschile e femminile, forza e sensibilità, ricchezza e leggerezza, uniti a generare la sintesi perfetta.

Platone nel Simposio lascia la parola ad Aristofane, che dà la sua opinione sull'amore narrando un mito. Un tempo - egli dice - gli uomini erano esseri perfetti, non mancavano di nulla e non c'era la distinzione tra uomini e donne. Ma Zeus, invidioso di tale perfezione, li separò in due: da allora ognuno di noi è in perenne ricerca della propria metà, trovando la quale torna all'antica perfezione. L'oro di Clizia rappresenta tale unione.

L'effetto è ipnotico, estatico, in rappresentanza della più alta espressione della Luce. Una lamina dorata va ad abitare ogni singolo petalo di Clizia e per rispetto della Luce si apre ad un effetto craquelé. Sottili fenditure lasciano passare la luce, dando libertà ai lumen di esprimersi al meglio. Il prezioso metallo a specchiare, le piccole fessure a svelare.

Cristalflex® petals are covered in gold foil using a cold-coating process, and the crackled texture lets light shine through, an effect that other types of paint or printing cannot replicate.

La lamina dorata viene applicata a freddo su ogni singolo petalo in Cristalflex®, la texture craquelet lascia passare la luce e crea un effetto materico, impossibile da riprodurre con vernici o stampe.
