

*For 50 years now, manufacturing and design has been the passion that has inspired us all at Elstead Lighting. The business origins may date back to 1686, but our vision is 21st century.*

This catalogue presents more than 1,500 lighting fittings, all of which we believe are worthy of carrying the Elstead name, and in many cases also the names of our design partners.

The 2019 collection includes more than 300 new models, designed to innovate, inspire and excite. From stunning chandeliers and pendants, to exceptional portables, our love of bringing great lighting to the showrooms and homes of our much valued clients, is what drives us every day. Our constant focus on quality and functionality is ever present too as we strive to push the bar of greater performance, reliable quality and ease of installation higher.

We sell our products to a truly worldwide audience, lighting beautiful homes, coffee bars and restaurants, hotel bedrooms and public areas in more than 60 countries. We have our own sales distribution operations in 4 countries, managing more than 17,000m<sup>2</sup>, (185,000 ft<sup>2</sup>) of warehousing and production space and a team of more than 120 committed staff.

Today we see more opportunity for manufacturing, more desire for design and more passion for innovation. This is why we are so passionate about this business and why we are inspired to share it with you.

*unique  
aspirational  
lighting*

# PARTNERSHIP

We share the passion and love of great design with all of our customers, and wherever we are in the world, we find the same reaction and enthusiasm to great design. Often from historical influence, vintage and retro, regularly with style and flair, and always with attention to detail and quality, it is with these elements that products are crafted and created. Whether it is from an Elizabethan English country manor, a Venetian terraced villa or a 1920's Parisian town house, from original fittings, architectural features to sculptures and metalwork, we find influence from all around us.

Founded in 1922 and based in Cleveland, Ohio; Hinkley are on their 4th generation family ownership. The Hinkley collection has both a classic and contemporary feel to the product ranges, many represent what is classed as "transitional" styling, and are always made to the highest quality and design.

Based in Charleston, South Carolina, Quoizel was founded in 1930 and has since built a reputation for its diverse and unique product range, often engaging well known freelance designers to help with bringing fresh styles to the marketplace. Quoizel are well known for their use of natural materials and art glass, as used in their Tiffany Collectibles range, inspired by the great originator Louis Comfort Tiffany.

Cleveland, Ohio based and founded in 1938, Kichler are a large company held in high regard by their customers for the diversity of design and breadth of range. This includes some truly striking and often substantial pieces for grand interiors and exteriors of residential or hospitality establishments.

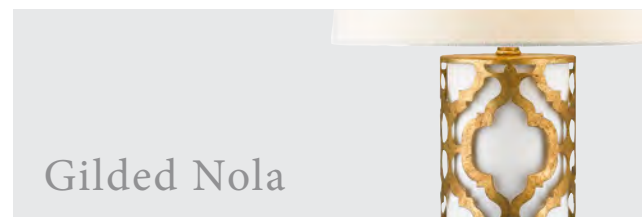

In 1955, Murray Feiss started his company offering a small assortment of porcelain figurine lamps topped with his mother's hand-sewn lampshades. Discerning consumers soon began to seek out the quality and unique nature of these designs. Now greatly expanded, Feiss continues to maintain the highest standards for materials and workmanship.

A beautiful collection of classical and art deco table lamps and floor lamps. Manufactured in New Jersey, these quality products are zinc cast bases with beautiful finishes and handmade shades all made in the USA.

Hailing from Baton Rouge, New Orleans; Flambeau offers one of the most unique and distinctive lighting collections in the marketplace. Working with specialist designers who model up their own original creations using distressed finishes of gold and silver leaf to create 21st century antiques. The Flambeau Collection brings to the market a style and look unrivalled in today's lighting industry.

As its name implies, the designs offered by Gilded Nola are inspired by the decorative elements of the city of New Orleans. World-famous for its abundance of unique architectural styles, which reflect the city's historical roots and its multicultural heritage, New Orleans offers a plethora of inspiration around every corner.

LIGHT BOX™  
COLLECTION

## LIGHT BOX COLLECTION

The Lightbox Collection™ from Elstead lighting signifies ranges that have limited distribution through selected distribution channels. Take care when considering these ranges to ensure your status as a Lightbox partner. This selected distribution operates only in certain countries, so please contact your local sales office to check on your access to this range.

making excellence a habit™

## SAFETY AND COMPLIANCE

Safety is paramount with all lighting, and especially when used in the bathroom. All of the products within this catalogue are manufactured to be safe and fit for their intended purposes. All products are CE compliant and are fully inspected and tested for electrical safety and function. They are all constructed to BS EN 60598-1:2015 standards and all bathroom and outdoor models are IP rated to ensure suitable protection against the ingress of water. The company is also certified ISO9001 compliant in both of our major European locations to further show commitment and competence in the manufacturing and supply of safe and reliable product.

## LITEC LED LAMPS

The majority of our interior fittings use E27 or E14 lamp-holders, which makes them suitable to use retrofit LED lamps. The Litec range offers an LED lamp solution for every such fitting in this catalogue. Using the latest LED filament technology, these energy efficient lamps offer good lumen output, look stylish with their retro vintage influences, yet run at a cool temperature and have a 25,000 hour life expectancy. Most bathroom fittings are supplied with Litec G9 LED lamps included.

# CONTEMPORARY

This Contemporary Collection brings modern elements to more classic / mid-century shapes and styling cues. They all have a unique design and showcase high-quality craftsmanship which is deserving of the sleekest designer settings.

\* Supplied with 2 x 152mm & 2 x 305mm rods.

Models shown: FE/MARLENA1 CH

The Katerina is truly a work of art, with two architectural arms securing a crystal-like glass and a cleverly concealed light source, for an ultimately sophisticated design. The geometric Marlena takes inspiration from an oversized door knocker. A solid oval loop elegantly frames the Clear glass shade. Both feature a sleek steel backplate, offered in Antique Bronze or Polished Chrome.

Models shown: FE/RUBIN/ISLE

The clear, faceted glass shades of the LED Rubin lighting collection serve as the central design element and add a romantic elegance and sparkle to these contemporary fixtures. A clean, sleek look is achieved with round and rectangular chandeliers which will be perfect in a foyer, living or dining room. Or a more playful, fanciful statement can be made by clustering pendants together to create a look that's reminiscent of a floral bouquet.

\*<sup>4</sup> Supplied with LED G9 bulb(s) = 320Lm each, 3000k

Models shown: FE/PAVE5 & FE/PAVE1

Inspired by the craftsmanship of fine jewellery, a Crystal inlay is coupled with the Polished Nickel finish and White Shantung Silk shades in each fixture of the Pavé lighting collection to add sparkle in an unexpected way. This transitional design delivers vibrant elegance to any room's design without overpowering the rest of the beautiful décor. The wall light features an Opal Etched glass shade.

\*1 Supplied with 1524mm of chain. \*2 Supplied with 3 x 305mm & 1 x 152mm rods.

Models shown: FE/PROSPECTPK9

The Prospect Park takes a traditional profile and modernises it with updated design elements to create a period uptown vibe. Sleek Satin Nickel arms are accented with crisp Chrome components, and bands of Chrome feature at the top and bottom of each cylindrical Opal Etched glass shade. Clear pressed crystal on each stem elevates the tailored look with a bit of glamour.

FE/PROSPECTPK9

This fresh contemporary collection from Elstead Lighting is a great choice for a chic home or contract application. The white polycotton shades have white acrylic diffusers and the simple architectural frames are finished in Brushed Nickel. The wall lights are available with single or double directional LED spotlights, each including individual switches.

Model shown: QZ/THEATERROW6WT

Theater Row is a perfect circle tooled in an elegant way unlike any other item on the market. Alongside the exposed bulbs, for which we suggest our 8W LED Edison style bulb for best effect, there is a central spotlight on the ceiling fittings. Available in two finishes; Imperial Silver and Western Bronze, Theater Row brings old New York elegance to lighting.

# DEMELZA & VERITY

The Demelza and Verity LED wall lights use clear cut glass shades to give a romantic glow. Demelza inspired by traditional art nouveau shapes, whilst Verity is a more contemporary torchiere that is inspired by the olympic torch. These fittings are IP44 rated and can be used in a bathroom as well a bedroom or living space.

The LED Falmouth collection by Elstead Lighting uses a charming heart shaped frame, and will add a romantic flair to bathroom and bedroom alike. The wall light is illuminated by a fitted LED, emphasising the beautifully curved metalwork. The semi-flush has a full white acrylic diffuser for excellent illumination without any visible glare from the lamp-holders. The Polished Chrome version comes with a black shade and the French Gold plated version comes with a white shade.

# BOTANIC

With both masculine and feminine influences, the transitional Botanic lighting collection by Feiss is a study in contrast. The spun metal drum captures the richness of an antique patina with natural variations. Then, elevating the piece is a dynamic Clear Pressed glass diffuser with a subtle floral gesture, which is then highly polished to generate breathtaking sparkle for a wholly modern look.

# DIAMOND

Inspired by stained glass, the Diamond collection features modern, large scale pendants with dramatic facets made of acrylic panels in a metal frame. The opal white acrylic creates a warm glow and hides the internal lamping. Soft light shines out the bottom of the open pendants. The custom canopy features a raised, faceted design detail to continue the motif.

\* Supplied with 1524mm of chain.

The Nico pendants feature a cage profile with dramatic geometric flair. Clean lines seamlessly transition into curves, which all meet at a perfect point by using superior hand-welding techniques. The exposed bulbs are central to the design, so Edison-style LED bulbs are a perfect choice. Finished in Chrome.

Model shown: KL/ALEEKA5B

Like the sun attracts the planets, the LED Aleeka collection uses celestial inspiration to create it's own gravitational force. Concentric rings orbit around a slim and sleek cylindrical centre column. Oval globes seem to float almost weightlessly on top, and the Classic Pewter finish delivers the final soft contemporary touch.

# AGATHA

The LED Agatha range is IP44 rated for bathrooms but can still be used in corridors and other living spaces. An integral LED lights up the acrylic rod on the wall light and 3-light pendant. Light sparkles through clear cut glass shades on all models. The range come in two finishes, Polished Chrome and Brushed Nickel.

Model shown: FE/KENNEY/LED

The contemporary Kenney collection is an updated take on a classic, mid-century modern design in our new, refined Sunrise Silver finish. A decorative, dual-layered, geometric motif is stamped out of the steel frame which floats over a white linen shade to create depth and visual interest. The dramatically tall sconce features integrated LEDs behind the fabric, emitting gentle light, perfect for a media room requiring soft accent lighting.

The modern orb silhouette of the Corinne collection by Feiss features an Inlay Crystal detail along the inner surfaces for dramatic sparkle. The centre candles are attached by a hub giving the illusion they're floating. The three main hubs and ceiling canopy all share the same architectural styling details.

Models shown: FE/LEXI/P

Stunning clear, textured crystals floating within a laser cut frame give the Lexi lighting collection from Feiss an artisan feel. A White Shantung Silk shade sits within the crystal drum while a glass diffuser gently softens the light. Lexi's staggered crystals blend a soft, contemporary vibe with an element of drama.

Model shown: FE/ZARA4

The striking Zara collection is contemporary design with classical curves, creating a truly beautiful range. The mosaic like square metal pieces are individually hand welded together and curved in two directions creating a unique fitting every time. With the addition of the almost translucent Silver Organza shades these Brushed Nickel fittings are completed by the addition of frosted glass diffusers.

# ASTRID

Sleek and chic, Astrid is designed as an airy geometric beauty balanced with robust welded construction. The larger pendants have an inner light cluster, uniquely wired from the bottom, which appears to float inside the outer cage. The two-tone finish further enhances the layering effect for added depth and dimension.

The Mosaic chandelier runs strands of golden tiles from the central bobèche, down to drape under each individual arm. The effect is a unique modern take on the traditional crystal chandelier. The Remi has a hand-crafted appearance, with silver sculpted elements including fleur-de-lis inspired bobèches, highlighted with brushstrokes of red paint. This 5 light chandelier is completed with grey and cream crackle painted shades for a truly unique look.

\* Supplied with 1829mm of chain.

Models shown: FB/MIGNON8 and GN/SUN KING/TL (see page 603)

These three unique products are designed by artists local to New Orleans and draw inspiration from the vibrant city. The Mignon chandelier combines gold leaf sculpted elements with a worn cream finish and crystal droplets. The hand-carved style of the Crown pendant is painted silver and gold. And the Dumaine wall light has a taupe amber washed backplate, and a cream stem with gold leaf elements, topped with a cream fabric shade.

# TRANSITIONAL

Bridging the gap between Contemporary and Traditional, Transitional style lighting has become a popular genre, still being loyal to classic and traditional design but just with a fresher interpretation. Easy to place and versatile, these ranges are suitable for both residential and hospitality settings.

# DEWITT

The French Provincial-influenced DeWitt lighting collection by Feiss has a traditional and elegantly simple silhouette which has been completely updated using the dramatic contrast of a gilded Sunrise Silver finish. Using an innovative technique, clear teardrop crystals are painted on one side with the matching finish so colour shines through to harmonise perfectly with the rest of the fixture.

# Gilded Nola

The Lemuria family designed by Karyl Pierce Paxton uses the classic Grecian key motif in a rich Distressed Gold finish. Ivory White linen shades and opal diffusers are used to create a soft warm light. The duo-mount pendants come with adjustable height rods but can also be used as semi-flush ceiling fittings. This family is ideal for retrofit LED bulbs.

## Gilded Nola

Arabella has a beautiful Distressed Gold metal outer shade with a Cream linen fabric shade and glass diffuser to soften the light. The pendants are duo-mount to semi-flush fittings which allows the rod stem to be shortened to accommodate rooms with low ceilings. The half moon wall sconces are great for compact rooms and corridors. This range is ideal for retrofit LED lamps.

# DREYFUS & EVINGTON

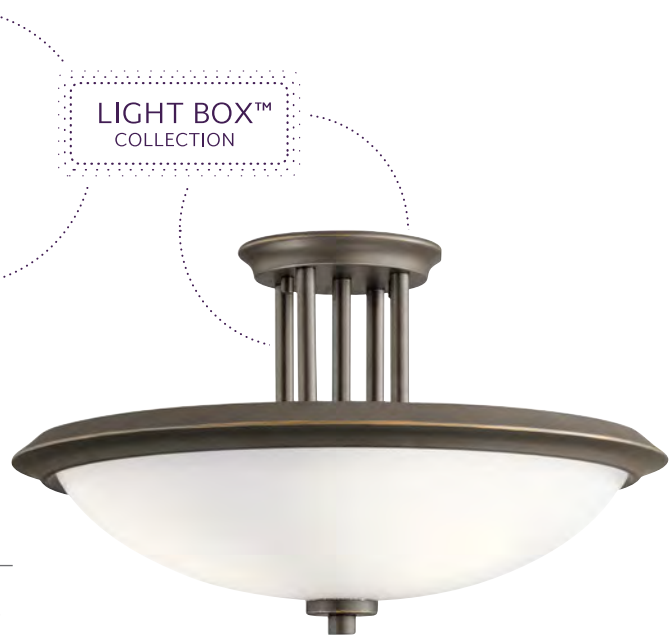

The Dreyfus semi-flush by Kichler has a clean, modern silhouette with an optical crystal accent, which can be removed for lower ceilings or a cleaner look. Available in Classic Pewter or Olde Bronze. The Evington semi-flush by Feiss has a flowing, traditional form with contemporary flair. Available with either a Sunset Gold or Satin Nickel finish, this product has a Blown Opal Etched glass shade and is accented with a clear sphere.

Models shown: FE/TILLING1 DSGL

The architecturally-savvy Teva wall light has a sculptural mounting structure and a White Shantung Silk shade. It is constructed in steel and offered in either a Polished Nickel or Antique Bronze finish. Inspired by the fluid lines of a vintage scale, the oversized profile of the Tilling wall light makes a statement with its traditional styling and use of Weathered Iron and Distressed Goldleaf finishes. The fixture is nicely balanced by a White Linen shade. Both models can be fitted without the top finial.

# FINSBURY PARK

The classic Finsbury Park family is a traditionally handmade series featuring hand cut glass droplets with cut glass sconces. Using many components in cast brass, this solid range of fittings comes with a Polished Nickel finish. Some fittings are shown with optional LS162 hand made shades, and the ceiling lights are convertible to semi-flush. The lanterns are also available in Old Bronze and have telescopic rods to allow height adjustment for lower ceilings.

**PIMLICO**  
DARK BRONZE

The stunning Pimlico range is a beautifully crafted family of products using fine square tubes unusually curved on its edge. Partly made of solid brass, the Pimlico features fine cut glass sconces and droplets to accent either the Polished Nickel or Dark Bronze finishes. Optional LS162 or LS200 clip shades are available if required.

# BAMBOO

Living up to its name, the Bamboo range is reminiscent of bamboo lengths neatly tied together. All models will accept optional glass GS153 if desired and the ceiling versions are flush/convert, allowing easy adaptation from chain to semi-flush. Designed and manufactured by Elstead, Bamboo is available in a Bronze Patina finish.

Model shown: FE/VINTNERS5

Wine glass-shaped, Opal Etched glass shades inspired the name of the transitional Vintner collection by Feiss. The sweeping design uses smaller arms at the top and slightly larger arms below. A decorative sphere detail acts as a perch for each glass shade for an elegantly simple silhouette in a Satin Nickel finish.

# TRADITIONAL

Based on original styles with historical influences, this Traditional Lighting Collection offers a large expanse of choices in size, style and colour. Many of the products have hand painted finishes representing old bronzes, aged silvers and gilded golds that were commonplace in years gone by.

# REGAL

The Regal range designed by Elstead Lighting is inspired by royal regalia and imagery from the British royal heritage. The overall silhouette of the products are a combination of traditional metal arm fittings and modern globe forms. The metalwork includes detailed banding, finished with a two-tone finish, mixing Oil Rubbed Bronze with Gold painted details.

# PARKMAN

The Parkman collection is a period-inspired group of pendants and flush mounts featuring classic detailing taken to a modern scale. The largest option is an over-sized silhouette sure to make a dramatic statement. Group several pendants together of consistent or varying sizes to create an impactful installation where a chandelier might traditionally be placed.

# VINTAGE

The use of Vintage and Industrial style fittings has become one of the most significant recent trends in lighting and looks great in bars and restaurants as well as the home. Our collection brings a number of styles influenced by the 1950's and 1960's, often referred to as mid-century modern, and many of which are updates on original styles of the 1920's and 1930's period.

## GRANDE WALL/PENDANT

The style of the Provence is taken from French designs of the mid 1900s where they were commonly used to light tables in kitchens, cafes and bistros. This Grande fitting is flexible with three adjustable knuckle joints and is suitable for either a wall or pendant application. The Provence range is offered in Aged Brass, Old Bronze, Polished Nickel and Polished Copper finishes.

# URBAN RENEWAL

These fittings are influenced by what were seen as functional and industrial lamps of the 1900's. The lamp cage, once a safety feature, now evokes a stylish vintage feel. Using Edison style lamps, they are ideal for use in restaurants, bars, kitchens and anywhere that suits a more heavy duty looking fitting.

The Douille range is ideal for vintage-style LED filament lamps, featuring lampholders constructed from heavy castings and twisted cables for that authentic period style. Cord lengths are adjustable on the pendants and wall lights and the chandelier is supplied with rods for adjustable drop. The lampholders also have a removable shade ring so optional glass shades can be added to all fittings.

# KITCHEN

The use of decorative light fittings in the kitchen has become a common choice as part of the overall design. This collection shows our most commonly chosen models used in kitchen spaces, breakfast bars and serving areas, most of which are transitional and vintage based styles. They are also often used in bars and restaurants as the majority of pendants are height adjustable to maximise versatility.

The Baskin lighting collection by Feiss is an ultra-clean, modern take on the classic antique socket pendant light. In two, iconic silhouettes, the clear thick glass pendants bring warmth and sparkle. The finishes offered include Polished Nickel for a more contemporary feel, as well as a unique combination of Painted Aged Brass with Dark Weathered Zinc which works well in a more rustic décor. Recommended for use with Edison-style LED filament lamps.

These fittings are influenced by what were seen as functional and industrial lamps of the 1900's. Many featuring the use of Faraday style industrial lamps, they are ideal for use in restaurants, bars, kitchens and anywhere that suits a more heavy duty looking fitting. Most of the pendants come supplied with versatile drop rods or cords so that they are easily adjustable to suit most situations.

These products feature  
Antique Mirror Glass on  
the inside of the shade

# COUNTRY RUSTIC

Our Country Rustic series brings together a collection of products suiting period and country settings. There are large and smaller scaled families, including grandiose hand forged iron fittings and solid wood models in aged finishes. All of these styles are equally at home in residential and hospitality situations.

# CROWN

The new Crown range designed by Elstead Lighting is inspired by royal regalia and imagery from the UK royal heritage. Key features of the metal-work include unique hexagonal tubing and detailed fretwork bands, finished with a grey hand painted finish that includes a subtle water droplet effect. The range also benefits from compact heights, ideal for properties with lower ceilings.

CROWN/SF  
Shown as Pendant

The Crown Semi-Flush is supplied with chain to be converted to a pendant.

# WYATT

Reinventing a classic, Wyatt's bold design tames the Wild West. Its refined rustic silhouette reinterprets the wagon wheel in a solid wood polygonal ring tailored with modern sensibility. Deluxe details, such as textured metal brackets and candle sleeves, a wood-trimmed canopy and forged hooks enrich its luxe lodge appeal.

# QUOIZEL

A rustic contemporary look that gives a dramatic flair to your home, this design serves as a piece of art in itself. It features gorgeous butterscotch onyx shades that emit a romantic glow, and sweeping wrought iron metal bands that add visual interest. Onyx is a mottled quartz (natural stone) that takes a high polish. As the favourite medium for Greek and Roman sculptors and architects, onyx has become a cultural symbol of tradition and refined taste.

# PICTURE LIGHTS

The use of decorative picture lights to highlight family portraits or favourite artworks also doubles up as a subtle ambient light in the evening. With several colour and size options available, the Elstead picture light collection has traditional, transitional and more modern styles to choose from.

Chawton picture lights are designed by Elstead Lighting and have adjustable knuckle joints to allow directional light to make the most of your precious art and family portraits. Available in small, medium and large sizes and five finishes in order to suit a wide variety of rooms.

# BATHROOM

This stylish range of products has been specifically designed for use in the bathroom environment, although they can also be used elsewhere within the home. Offering a choice of both classic and transitional designs, these fittings will add style and elegance to any bathroom setting. All of these products are IP44 rated, which is the water ingress rating required in many countries for bathroom lighting, making them suitable for Zones 2 and 3. G9 LED lamps are supplied with all fittings listed with G9 lamp holders.

# CRYSTAL SKYE

The Crystal Skye collection features triangular crystal prisms that rest inside Chrome details and stand ready to reflect light in a hundred different ways. Rounded crystals on the bottom reflect the inner light. IP44 rated and fully LED, this stunning range is safe for use in bathroom environments, as well as any other rooms in the home.

# PAULSON

The Paulson collection features vintage-inspired silhouettes with an updated, contemporary twist. Polished Chrome-finished components secure glass tube shades, which are created using rows of individual clear glass rods to softly diffuse the light. The Paulson collection offers fixtures for every room in the house, should a coordinated design aesthetic be desired throughout your space. All fittings are conveniently IP Rated making them also suitable for bathroom use.

Models shown: FE/JESSIE/BATH

Inspired by fine jewellery, the Jessie LED vanity light uses faceted crystals to enable dramatic reflection of light, softened by a white diffuser behind. The Maddison bathroom wall light has clean, elegant lines. A cast metal detail sits between the Opal Etched glass shade and the thick, clear crystal detail at the base of the light. Uses an LED light source.

# DEMELZA

The Demelza wall lights are inspired by traditional art nouveau shapes. They are available in Polished Chrome, Polished Brass or Brushed Brass finishes. The delicate shape of the clear cut glass shade gives a romantic glow. These fittings are IP44 rated and can be used in a bathroom as well a bedroom or living space.

The Falmouth by Elstead Lighting uses a charming heart shaped frame, and will add a romantic flair to bathroom and bedroom alike. The wall light is illuminated by a fitted LED, emphasising the beautifully curved metalwork. The semi-flush has a full white acrylic diffuser for excellent illumination without any visible glare from the lamp-holders. The Polished Chrome version comes with a black shade and the French Gold plated version comes with a white shade.

The Morvah wall light designed by Elstead is suitable for use anywhere in the home, including the bathroom. The light can be mounted facing up or down, and uses a large bubble glass shade to create a diffused lighting effect. Users can fit any E27 base bulb, but we recommend an LED Edison style for that true vintage look. Available in Chrome, Brushed Brass or White.

# TAMAR

The Tamar flush fitting is IP44 rated for bathroom use but also suitable for corridors and low ceiling living spaces. The cylindrical opal glass is surrounded by a mild steel frame that is plated in Polished Chrome or Polished Gold finish. The classic details of the thumb screws and finial allow this simple flush fitting to suit both a traditional or contemporary situation. Supplied with a quality GX53 LED lamp which is energy efficient and gives very even light distribution.

# SERENA & SEAVIEW

The Serena and Seaview bath series share similar traits, using minimalist metal components finished in Polished Chrome to show off unique glass shades. The Serena features clear marquis-cut glass for a stunning sparkling effect, and the Seaview has thick glass, frosted on the interior to diffuse glare, with rivulets on the exterior for texture and dimension.

# QUOIZEL TIFFANY

## COLLECTIBLES

### Louis Comfort Tiffany

The use of stained glass has been around and admired for more than a 1000 years, where it was most commonly used on cathedrals and churches. However, one of the most famous designers in this field was Louis Comfort Tiffany who also developed lighting products featuring stained and art glass at his famous New York studios.

Tiffany himself had originally trained as an artist and later learnt the craft of glassmaking while working at several glasshouses in the Brooklyn area. After perfecting some of his own techniques for stained glass by making his own opalescent glass utilising the copper foil technique, he founded Tiffany Studios in 1879. At its peak, the then famous and highly successful company employed more than 300 artisans. Tiffany original objects are still highly regarded and collected all over the world.

### Tiffany by Quoizel

Today, the name Tiffany is synonymous with products featuring stained and art glass pieces, copper foiled together, and particularly light fittings that benefit the beauty that the electric light bulb does to these when lit. Quoizel provides a range of looks that capture the Tiffany spirit; from highly traditional and transitional styles to more contemporary interpretations sure to suit any modern-day décor.

Whether you are looking for deep jewel tones and intricate patterns to serve as a statement piece in your home or whether you seek a light, neutral palette that offers the beauty of stained glass as a subtle complement to your room décor, Quoizel has many Tiffany style art glass lamps and lighting fittings that will suit your needs perfectly.

## The Art of making Tiffany style lamps

The skilled artisans trace out the pattern from a template then hand cut the art glass.

Each piece of glass is then ground to fit the shape of the mosaic pattern required.

Each piece of art glass is then cleaned and copper foiled.

Flux is then applied to the copper foil and each mosaic piece is put into place within the fibre glass mould.

The shade is then soldered together on the inside with lead solder, and again on the outside to strengthen construction.

An authentic Bronze patina is applied to the solder, it is then hand waxed to protect the solder from oxidation. It is then polished to give a lustrous finish.

### Exquisite investments of today – cherished heirlooms of tomorrow

Art glass can be more expensive than crystal glass. All Quoizel Tiffany collectibles are made of art glass and the shades in the Elstead collection have between 44 to 632 pieces. The average shade takes 80 hours to create by skilled artisans. Nothing adds colour to a room quite like Tiffany lighting.

### Taking care of Quoizel Tiffany

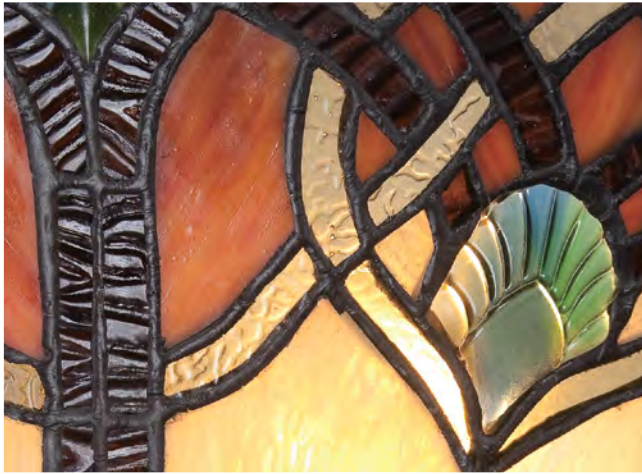

Never use chemicals to clean your art glass. Use a damp cloth only to remove any excess oil. Use linseed oil on the solder to maintain the lustre after cleaning.

# Stiffel®

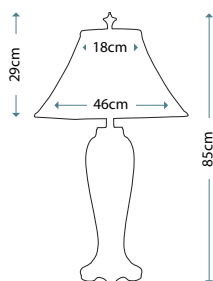

Stiffel lamps are proudly made in the USA. Every Stiffel lamp is an original, created by talented designers and skilled artisans. To truly appreciate the beauty of a Stiffel lamp, you must take in each detail and consider the hours of expert craftsmanship that created it: the design, the carving, the finish.

The Stiffel Lamp Company was founded in 1932, in Chicago, Illinois by Ted Stiffel. A talented craftsman, Ted Stiffel had a background in fine arts that gave him a unique ability to design innovative and intelligently crafted lamps. Stiffel's dedication to excellence established the company as the industry leader in quality.

Today that tradition continues with caring and enthusiastic employees, all of whom work towards one common and rare goal – excellence. Proudly all of their products are still made in America, at their 40,000 square foot facility in Linden, New Jersey.

RIPPLE/TL BLK

Black resin table lamp with Polished Nickel accents. Includes a Black faux linen hard-backed shade.

Max. Wattage: 1 x 60W E27

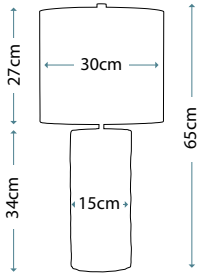

# GLAZED CERAMIC

BY ELSTEAD LIGHTING

The quality craftsmanship that goes into every handmade base of our Glazed Ceramic collection is palpable. From unique shapes to exquisitely detailed glazes, these beautifully designed products are ideal to add a splash of colour or point of intrigue to any interior décor.

Whilst our table lamps undergo vigorous quality checks, please be aware that the nature of reactive glazes means that the lamp you receive may not appear exactly as pictured, and colours will vary from base to base.

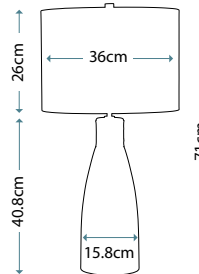

**BARBICAN**  
BARBICAN/TL

A retro sculpted ceramic base in Graphite finish complete with a silver faux silk drum shade and Polished Nickel finial.

Max. Wattage: 1 x 60W E27

DESIGNER  
MIRRORS

### SILVER TWIST

Circular mirror with a sculptured twisted frame in an aged silver leaf finish.

**Product Code**

FE/SILVERTW MIRR

**Dimensions**

H: 864mm W: 864mm

### ARGENTUM

This octagonal mirror is softened by curves and finished in a rich silver patina finish.

**Product Code**

FE/ARGENTUM MIRR

**Dimensions**

H: 902mm W: 902mm

### COSMO

This large contemporary mirror has black circular frames overlaid with thick silver spokes and is a dramatic feature ideal for a monochrome interior setting.

**Product Code**

FE/COSMO MIRROR

**Dimensions**

H: 1067mm W: 1067mm

### REMY

Parisienne Gold details are framed with a Heritage Bronze square frame. This mirror compliments the five lighting fixtures from the Remy range.

**Product Code**

FE/REMY MIRROR

**Dimensions**

H: 940mm W: 940mm

\*Mirrors not to scale - see dimensions\*

# LED LAMPS

The Litec range of LED lamps are optimised to suit Elstead Lighting products. They all feature a high lumen output, and the filament style bulbs have the added bonus of looking attractive both when switched on and off. Lamps can be ordered either as single units or at lower prices in pack quantities.

AMBER  
GLASS

**EDISON E27 LAMP**  
Pack (x10) Code: LPLED8WE27ST6/PQ

N.B. All lamps are UV free, suitable for 220-240v and are NOT dimmable.

# TECHNICAL ADVICE & INFORMATION

---

## FINISHES

Many of the finishes used on these ranges are hand applied (patinated) and some variations and irregularities in the finish are to be expected. This is part of the process of manufacture and, far from being a problem, it is an important part of the nature of hand made and hand finished items.

## LAMP-HOLDER TYPES

Most fittings are constructed with either E14 lamp-holders (Small Edison Screw, sometimes referred to as SES) or with E27 lamp-holders (Edison Screw), sometimes referred to as ES. Appropriate E14 and E27 lamps are widely available in a range of styles, wattages and light sources including incandescent, compact fluorescent and LED. Some of these lamp-holders are now supplied with threaded skirts, together with candle tubes and shade rings. This means that these products can be used either as a fitting with candle tubes and candle lamps, or with glass using the shade ring. Additionally we make certain fittings which use G9 and GX53 lamps. Lamps are usually supplied with these fittings.

## LAMPS

Unless otherwise stated lamps are not included with any fittings constructed using E14 or E27 lamp-holders. However, in cases of G9, GU10 and GX53 lamp-holder types, these fittings come supplied with LED lamps as standard.

## LED COMPATIBILITY

Where conventional E14 or E27 lamp-holders are used, all of these fittings are compatible to the use of an LED lamp option. See our options on Pages 676 – 677 or choose alternatives available in the market. We recommend to check the lamp dimensions first to ensure the size is suitable.

## STATED MAXIMUM WATTAGES

Most fittings shown in the catalogue are shown with Maximum Wattage recommendations. These recommendations are calculated mainly by heat capability, as there is a correlation between heat and wattage. However, in many countries traditional incandescent lamps and also some Halogen replacement lamps, such as 100W GLS are no longer available. There are now many new versions of LED lamps in the market, featuring a lower wattage but similar or better Lumen output performance compared to originals. See Pages 676 – 677 for our options. For most of the fittings featured in this catalogue, wattage capacity and certification has been based on the criteria using an original Incandescent lamp and so when choosing lamps, please take care to ensure that wattages specified are of no more than the equivalent original incandescent lamps. In the case of LED, the wattages are far lower, but some of these can still run very hot, not dissimilar to incandescent of much higher power.

## VOLTAGES & HERTZ

All fittings shown in this catalogue are suitable for 220V- 240V power supply unless stated. These fittings are designed for use with 50Hz frequency although standard mains voltage fittings can also be used in 60Hz locations. However, some ranges are dedicated LED or Low Voltage, 12V to 24V, and these should be checked for local suitability if planned to be used with 60Hz frequency power supply.

## LUMENS QUOTED

Lumens is a term used for the measurement of light output. All Lumens quoted in relation to light fittings, wall lights and ceiling lights are those either provided by the original manufacturers or are Lumens of the light source / lamp.

## OPTIONAL FITTING GLASS & CLIP SHADES

Many of the ranges shown in this catalogue are featured with "optional glass" or "optional shades". Where this is referred to, and glass or shades are preferred, please order the glass or shade reference and quantity separately. See our Visual Index page 47. for options.

## FLUSH CONVERT/DUAL MOUNT

Many of the interior ranges have also been constructed with the ability for the fitting to be easily modified from being a chain fitting into a semi-flush fitting. Note that once converted to semi-flush it is not then possible to easily convert back to a chain fitting, as some re-wiring is likely to be required.

## CUSTOMISATION

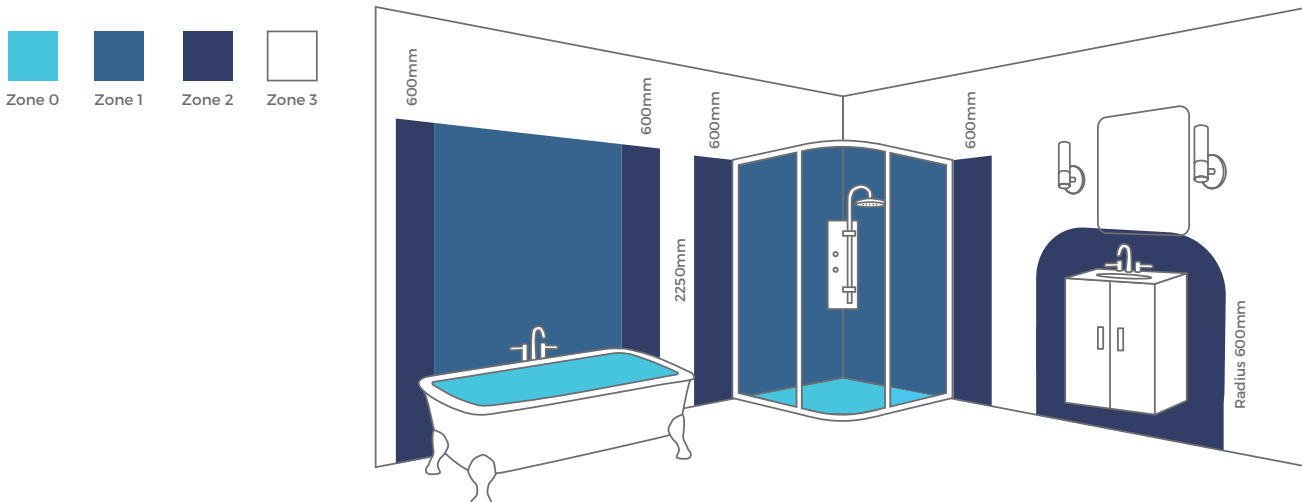

Some of our ranges supplied in matt black can be relatively easily patinated into finishes such as Black/Gold, Black/Copper etc. Equally, for chain suspended fittings that need extra chain and cable, these can also be relatively easily undertaken. Both such modifications may incur longer lead times and will have small additional costs added to the price. (See current Elstead Terms and Conditions.) Beyond this, with appropriate lead time and client budget, more specialised changes can be undertaken such as different colours completely, changes to dimensions and design modifications and even fully bespoke fittings can be considered due to our varied manufacturing resources available.

## PRODUCT WARRANTIES/GUARANTEES

All fittings supplied from this catalogue have a manufacturer's warranty of 2 years. This means that in normal and fair service, (and without incorrect or inappropriate installation, location or treatment), any product sold by Elstead Lighting or its partners should have no fault develop within a minimum of 2 years from purchase. Any fault that is found is covered by guarantee to be repaired or replaced at the manufacturers cost, within this period. This warranty does not cover out of pocket expenses or consequential costs.

## IP RATINGS

Some of the products featured in this catalogue state an IP rating such as IP44. The term IP stands for Ingress Protection and relates to the product's ability to protect electrical parts from ingress of moisture and water. In particular, this is relevant for products being used in Bathroom locations and for outdoor living spaces. For installation and compliance purposes, bathroom spaces have been divided up into zones 0 to 3 and this diagram shows how lighting in a Bathroom should be planned based on these zones.

## COMPLIANCE/APPROVALS

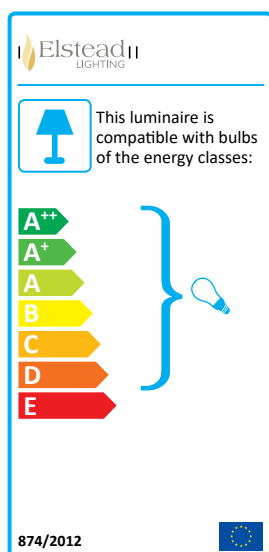

All products within this catalogue conform with the European Union Low Voltage Directive, BS EN 60598-1:2015, the product standard for luminaires recognised across Europe and all fittings are CE marked. Every luminaire is individually tested by Elstead Lighting to ensure that the product is electrically sound and meets the company's quality standards. A unique test/batch number is then applied to the fitting. Please contact us for further details or advise us of your local needs if you are outside of these recognised standards.

We are certified to ISO9001:2015 quality management within our UK and Poland operations. Our UK factory is approved for the manufacture of (General Coverage) Fixed and Portable Luminaires, Dry Locations only, for the North American market bearing the "cULus" mark for US and Canada. Elstead Lighting are also manufacturing members of the UK Lighting Industry Association.

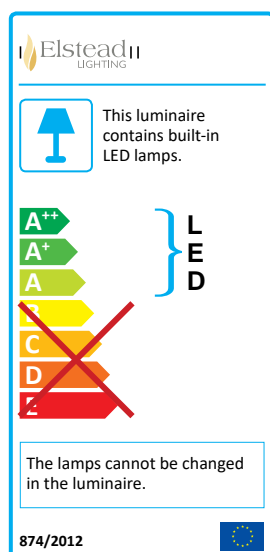

## ENERGY RATINGS FOR LUMINAIRES

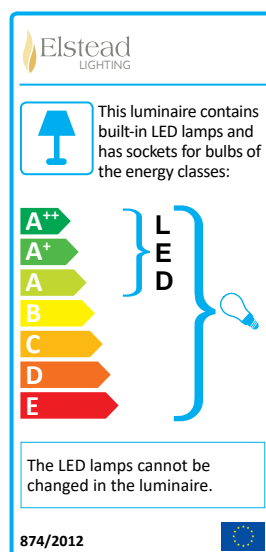

Please see the relevant energy rating label for the corresponding lamp holder type. Please note that, with the very large number of lamp options available in the market, it is impossible for our luminaires to accurately reflect all choices. But all lamps able to be bought in the market should have their own dedicated energy rating performance clearly stated on their packaging.

All luminaires with replaceable lamps. Incandescent, fluorescent or LED.

Dedicated LED fittings.

Some of our luminaires combine built-in LED with replaceable lamps.
